

SMU CONNECT

SPENCER MUNICIPAL UTILITIES

JULY 2023

Amanda Gloyd

Marketing & Community Relations Manager

It has been a busy summer so far with all of the projects going on around Spencer. Thank you for your patience as we have had some service interruptions due to the upgrades to our water and electric infrastructure. Over the next few weeks we'll have crews working on the Clay County Fairgrounds to get fiber installed and ready for the upcoming fair.

Work has also been completed on the Fountain on Grand so we can all enjoy it for the remainder of the summer!

Safety Training

Various safety trainings take place throughout the year for SMU staff. Recently, the SMU lineman had safety training on pole top and bucket truck rescue.

Time for a New Heating and Cooling System?

Have you noticed your air conditioner may not quite be keeping up this summer? If it is time for a replacement, be sure to take a look at SMU's rebate program. There may be a rebate for a new system. An air-source heat pump can provide efficient heating and cooling for your home. For a complete look at the program along with the rebate forms, visit <https://smunet.net/electric/energy-efficiency/>.

Communications Act Section 255

The Federal Communications Commission (FCC) has rules requiring telecommunications service providers like Spencer Municipal Utilities to make its services and products accessible to people with disabilities, if such access is readily achievable. These rules implement Section 255 of the Federal Communications Act. Section 255 requires telecommunications service providers to make their services and specialized customer premises equipment that are commonly used by people with disabilities, if such compatibility is readily achievable. Please contact us at 580-5800 for further information or to discuss your accessibility needs and the options we may have to assist you in using our services.

PUT NEW INTERNET ON YOUR SHOPPING LIST

Old school classics like notebooks and colored pencils are still around. But new school technology has moved to the head of the class, with most homework now being done on tablets or laptops rather than paper.

To help your student succeed, consider upgrading to an A+ internet plan from Spencer Municipal Utilities. We offer super-fast speeds and unmatched reliability, so the only thing getting in the way of completing homework efficiently will be texts from friends!
